## General Information

### Orders

All orders are subject to acceptance by the General Sales Department, Toronto Ontario. No liability shall be incurred by Hydronic Systems Canada Inc. if manufacture or delivery is prevented or delayed by strikes, fires, delays of carriers or other unavoidable delays or beyond its reasonable control, or by inability to obtain materials. Prices quoted herein supersede all prior price lists and are subject to change without notice. Prices do not include any HST or local taxes that may be payable on the manufacture, sale or delivery of the merchandise covered by this price book. In cases where we are obliged to collect taxes, the same will be billed to the buyer.

### Payment Terms

Any allowable cash discounts will be shown on the face of the invoice. Any cash discounts taken after the allowable date will be disallowed and become due and payable. Where no cash discount is shown, terms are net 30 days from date of invoice. Interest at the rate of 2% per month will be charged on all past due accounts. An order for items included in this price book for which invoice prices aggregate less than \$50.00 net will be billed at \$50.00.

### Freight Terms

Prices quoted herein are F.O.B., our Toronto warehouse. Shipping weights supplied in the price book are approximate, for buyers' convenience only, and are not guaranteed. Please provide your choice of transportation facilities and shipping point. Extra freight and handling charges will apply for non-stock "rush" shipments.

### Delivery

Delivery to the initial carrier shall constitute delivery to the buyer. The seller's responsibility ceases upon delivery in good order to such carrier, and all merchandise is shipped at the buyer's risk. The buyer is urged to examine all deliveries before signing transportation receipts. If merchandise is visibly damaged, the buyer should insist that written confirmation of the damage be noted on the freight bill by the agent of the carrier. If damage is discovered after unpacking, their carrier should be notified at once so that inspection can be made and the claimed damage substantiated by the carrier.

### Return Material Policy ( within 90 days of purchase only )

No material may be returned without prior written authorization from the Company. Material arriving at Hydronic Systems Canada Inc. without prior authorization will be refused. New material of current manufacture normally stocked, in saleable condition, in original sealed carton may be returned within 90 days of purchase, freight prepaid, after written authorization has been received. In such cases credit will be allowed, less 25% or \$50.00 restocking charge, whichever is greater, provided that the equipment is received free of shipping or other damage. Goods not received in the original sealed carton will be refused. Customer will request a "Return Goods Authorization" request form to be completed prior to issuance of a return goods number. A Return Goods Authorization Number may subsequently be issued.

### Warranty Claims

Hydronic Systems Canada Inc. will provide "in-warranty" service consistent with the Manufacturers' warranties F.O.B. its warehouse at 34 Meteor Drive, Toronto, Ontario. All warranty claims will be subject to inspection for defect(s) in material and workmanship. If necessary it may be required to return items to the manufacturer for final determination. In such cases additional time for processing a claim will be incurred. Manufacturers' warranties generally provide for repair or replacement of components found to be defective. Any advance warranty replacement component will require a bon-a-fide purchase order which may be subject to credit pending warranty inspection. If the manufacturer elects to repair a deemed defective item, such item will be returned to the customer and no further allowances will be made.

## Panel Baseboard

---

### A Better Option than Fin-Tube...

- Panel baseboards provide both convective and radiant heat enhancing total comfort
- Faster heat-up rate with built-in valve for smarter control (heads sold separately)
- Efficient and energy saving for your customers
- Optimal use of low temperature radiators outperforms high temperature fin-tube
- Perfect solution for low temperature systems using condensing boilers, heat pumps and solar systems
- Decorative style with finished top grille and side covers
- Higher BTUH output than fin-tube baseboard
- Outperforms the most powerful heat emitters

#### **COMPACT CV 21S / 22**

#### **RAMO RCV 21S / 22**

#### **Baseboard comes packaged with:**

- RAL9016 white
- adjustable wall brackets
- one (1) air vent
- built-in thermostatic valve (heads sold separately)
- two (2) blind plugs
- side connections
- dual bottom connections
